

## ★ HEPA FILTERED ★ GARMENT LOCKERS STORAGE CABINETS

**T**hese specially designed cabinets provide the sheltered HEPA filtered sterile space necessary for storing tools, instruments, clean parts, clean room garments, process materials, wipes, gloves, glassware or any other materials normally used in your Clean Room environment.

### FEATURES:

- Provides for continuous bathing of Clean Room garments and equipment with HEPA filtered air. Economy Storage Cabinets can be upgraded to ISO Class 10 per ISO 14644
- Absolute (HEPA) filter system, 99.97% or 99.99% (optional) efficient on 0.3 micron size particles
- A quiet, self-contained blower system to provide constant output from the HEPA filter system easily accessible from the front of the cabinet.
- Optional UV ultraviolet germicidal lamps to help control bioburdens and contamination
- Optional shoe shelves and hooks

- Disposable polyester pre-filter easily accessible from the front of the cabinet.
- Adjustable shelf models will be fitted with stainless steel perforated shelves to permit a constant laminar flow
- Half-shelves, half-garment locker design

### TYPICAL COMPONENTS:

- Motor Blower Assembly
- Filter Plenum
- HEPA Filter - 99.97% efficient on 0.3 micron size particles
- Power Requirements: 115/1/60 V. 220/1/60 or 277/1/60 (Specify)
- UV germicidal lamps
- Magnehelic and pilot lights

# ECONOMY STORAGE CABINETS

## MODEL SELECTION:

### **Hanging Garment Rod Only\***

- Model #GL36RO 36" W x 78" H x 18" D
- Model #GL48RO 48" W x 78" H x 18" D

### **Half Hanging Rod\***

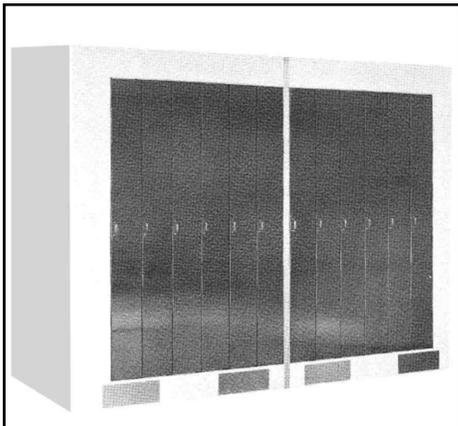

- Half - Four Adjustable Shelves
- Model #GL36HH 36" W x 78" H x 18" D
- Model #GL48FS 48" W x 78" H x 18" D

### **Four Adjustable Shelves\***

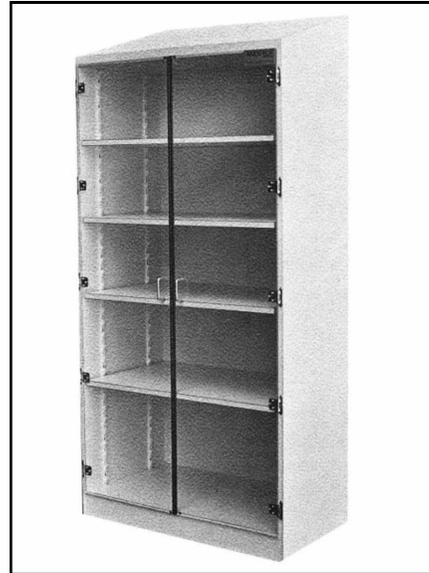

- Model #GL36FS 36" W x 78" H x 18" D
- Model #GL48FS 48" W x 78" H x 18" D

Note: Add (F) to model number when using HEPA filtered option

\*Add 19" to height dimension when used with HEPA Blower Section.

Model No. FGL56-6D

Model No. GL48FS  
Four Adjustable Shelf Unit

Special sizes and configurations available upon request.

Any one of the Halco unique Storage Cabinets can be designed with a wash of HEPA filtered, ultra clean air to effectively prevent deposition of dust and other particulates on stored Clean Room components.

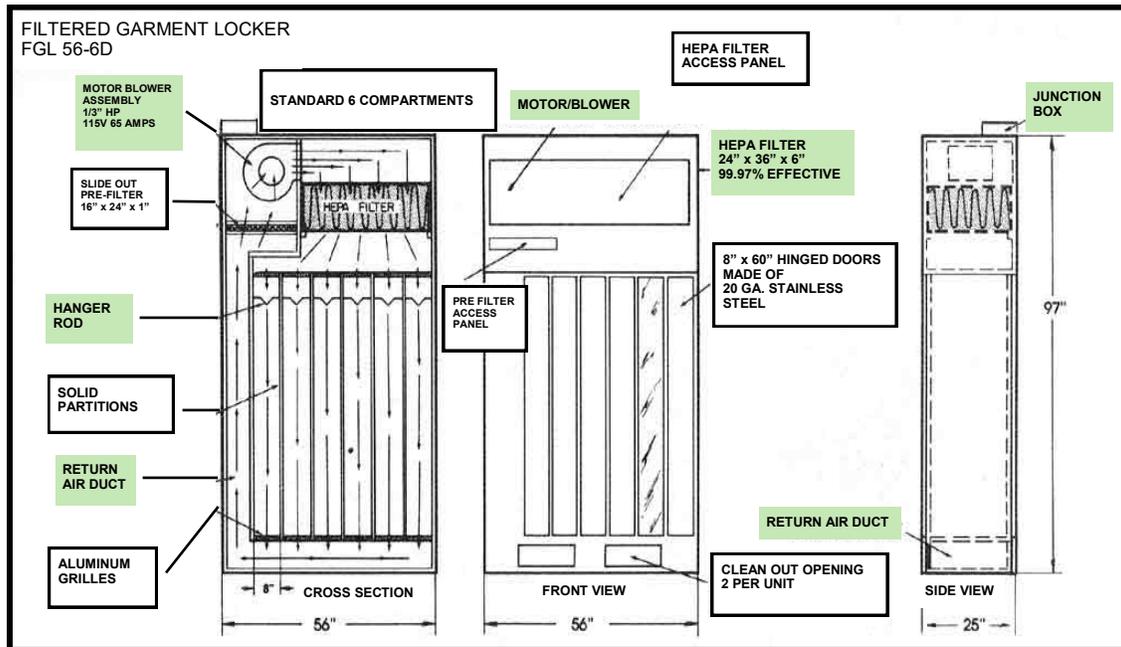

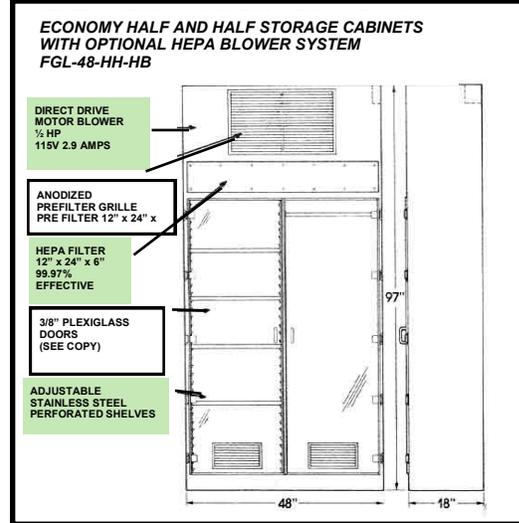

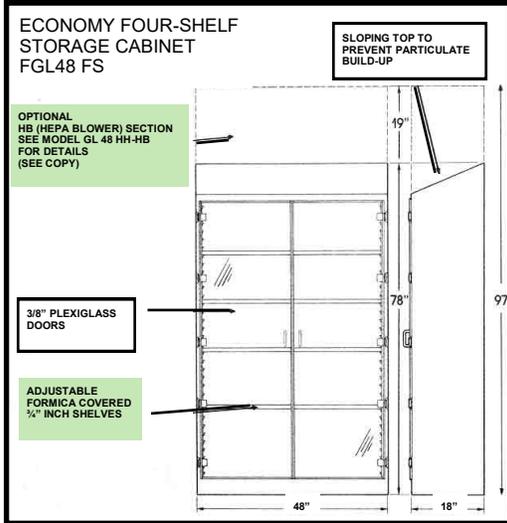

## FEATURES:

- Sterile air constantly bathes Clean Room garments in between uses
- HEPA filtered air velocities 100 to 150 FPM
- UV Germicidal Lamps
- Each garment is stored in 6 individual compartments
- Locker doors are highly polished stainless steel
- Units are manufactured to easily install together to form a wall of multiple units
- Extend garment life

## APPLICATIONS:

- Medical/Pharmaceutical Electronic application
